# ANNOUNCEMENT

---

The cattle included in this sale are mostly the product of the herds from which they are offered. A large entry has not been our ambition, but quality has, and the contributors to this sale feel that never before have they offered Shorthorns measuring up to quite such a high standard.

The females are mostly young, a few cows and heifers safe with calf, the balance being open heifers. An opportunity is thus given to secure high class foundation heifers or additions to high class herds. The individuals are very desirable and the breeding of the very best.

We would ask attention particularly to the bulls. Never before have we sold anything like the quality in herd heading material. They are from great sires and splendid cows, and should give a good account of themselves at the head of any herd.

W. A. DRYDEN,  
Manager.
